## **7. Adequate information relative to the substances used or products of degradation thereof for which restrictions and/or specifications are set out in Annexes I and II to this Regulation to allow the downstream business operators to ensure compliance with those restrictions:**

To achieve high chemical and microbiological purity, virgin fibers were used for production. The pulp and paper production process follows established technology requiring the use of generally recognized chemicals.

## **8. Adequate information relative to the substances which are subject to a restriction in food, obtained by experimental data or theoretical calculation about the level of their specific migration and, where appropriate, purity criteria in accordance with Directives 2008/60/EC, 95/45/EC and 2008/84/EC to enable the user of these materials or articles to comply with the relevant EU provisions or, in their absence, with national provisions applicable to food:**

The substances used do not contain any dual-use additives.

## **9. Specifications on the use of the material or article, such as:**

### **(i) type or types of food with which it is intended to be put in contact:**

Cellulose napkins are used for hygienic purposes, for single use. They may have short-term contact with all types of food.
